ADVANCED TECHNOLOGIES (INDIA)

COMPANY PROFILE

UNIT-1

CORPORATE OFFICE

UNIT-2

About Us : Advanced Technologies (India) is a manufacturer of architectural hardware and glass fittings Under the Brand name of BTX, which provides complete solution to residential and commercial structures. Nearly five years of a strong, customer-focused approach and continuous quest for world-class quality have enabled us to sustain leadership. Advanced Technologies (India) has an national presence with a thrust on Global Supply Chain and distribution footprint. Our products and solutions are supported by a wide network of dealers and distributors, which have helped establish a reputation for strong customer support. We believe that progress must be achieved in harmony with the socio-environment, wherein following green manufacturing practices is an integral part of its corporate vision.

Setting on a strong foundation since its inception, and guided by its customer-centric philosophy, the company leverages the power of complete architectural hardware solutions to enable infrastructure development partners to enrich with superior returns on their projects. With a mission to expand our global market outreach, Advanced Technologies strives to collaborate with its clients to provide comprehensive hardware solutions for residences and businesses.

Advanced Technologies (India) is a premier provider of an exclusive product range that includes Door Closers, Floor Springs, Glass Patch Fittings, Point Fixed Architectural Fittings, Shower Enclosure Fittings, Shower Hinges, Plastic Profiles, & Locks, Spider Fittings, Shower Sliding System, Stainless steel Railings & Balustrades, Premium range brass & Zinc handles, Cylindrical locks, Telescopic Channels, Bathroom Accessories and Aluminium Profile.

Since our inception, we function with our testing and R&D facility centre, as a result, setting industry benchmarks in hardware fittings and solutions. We are committed to partnering with its stakeholders for providing end-to-end architectural hardware products to the Architects, Builders, Fabricators, Interior Decorators, Corporate Houses, Government Contractors, and many others in the domain of residential and commercial projects. Advanced Technologies has emerged as an influential force in the continuing advancement of architectural hardware industry and has served for many popular projects, both domestic and international.

Vision: Starting as an entrepreneur we only focused on selling the best product with best prices. Our focus is always to cater to the mass market. Covering all the categories and to be the best in those. Our vision is to establish ourselves as an Industry leader in the year 2020 reaching every area in India and also to Export in other countries which involve increasing the Market Share up to 50%.
